Need for Speed Pursuit got a little brother: Explosive Pursuit!

Little brothers always love explosions more than big brothers.

Game is simple and fun: Avoid getting crashed into (if you do, you can heal your car with repair kits, no worries), collect cash so you can buy a better car and try to make the policecar bang into eachother or preferably into a rock.

Controls are GREAT, good visuals, nice scores... Nothing wrong to say over this game!. Still better than Parkitect 1.0.. = graphics

= 6 cars

- movement is weird

- music is couple seconds loop. Once you have unlocked the race car, you can just Alt-Tab and write this review. :)
